## MILLION DOLLAR GERM MURDER TRIAL SOON

### MAKE FINAL PREPARATIONS FOR THE CASE

PROMISES TO BE A MOST SENSATIONAL CRIMINAL SUIT

AS ENROSSING AS THE FAMOUS LEOPOLD-LOEB MURDER MYSTERY

(By United Press)  
Chicago, May 16.—Final preparations were completed today for the Shepherd million dollar germ murder trial which promised to be the most sensational criminal case since the famous Leopold-Loeb murder mystery.

A story rivaling the dramatic interest in morbid fiction of a blue-beard will be unfolded Monday when the case gets under way in Judge Thomas J. Lynch's criminal court.

In fact, the state will picture William D. Shepherd as a modern blue-beard who killed mother and son with poison and typhoid fever germs to obtain a fortune estimated at more than \$1,000,000.

The defense will try to prove that Shepherd, a middle aged, florid man, is a victim of greed, jealousy and the intrigue of a half-crazed woman.

### BETTER FARM MANAGEMENT URGED

(By United Press)  
St. Paul, May 16.—Sixteen Houston county farmers, under instruction of W. L. Cavert, farm management specialist of the extension division of Minnesota College of Agriculture, are conducting weekly classes to better farm management among their neighbors.

This attempt to extend systemized aid in farm management through specially trained local leaders, is believed to be the first in the country. Local leaders have been used successfully to carry on poultry and home management before, but not farm management extension work.

More than 200 district farmers are attending the meetings being conducted in every section of the county. Economics of hog production, preparation of net-worth statements, economics of the dairy business, and better crop planning systems, are the four subjects emphasized in the courses.

### EXPLOSION ON ITALIAN SHIP

SEVERAL MEMBERS OF CREW OF "ADIGO" INJURED BY ACCIDENT

(By United Press)  
Washington, May 16.—Several members of the crew of the Italian steamer Adigo were injured by an explosion and fire which followed aboard the ship while lying at anchor off Hampton Roads early today, according to a dispatch at the navy department here. The injured sailors were taken from the steamer into the naval hospital at Hampton Roads. The message did not give the number of men injured nor the estimate of damage to the vessel. The fire was under control in a short while.

Dry Agent Says He Shot in Self Defense

(By United Press)  
Elk Point, S. D., May 16.—Francis Fountain, 22, was shot and killed late yesterday and Ike McCoun, federal prohibition agent, his slayer, is being held in jail pending an inquiry. McCoun claims Fountain attacked him and he shot in self-defense.

### Wolves Trap Women

Rome, May 16.—Many women and children were forced to remain for more than an hour in a church on the slope of Mt. Vesuvius when a pack of wolves surrounded the edifice during a service. Villagers later drove away the wolves, which are rare in that region.

## Lopez-Frazier Scores Important Victory Today

### FARMER'S WIFE ATTACKED AND KILLED BY BULL

(By United Press)  
Princeton, May 16.—Mrs. John Benston, living two miles south of here, was killed late yesterday when attacked by a bull. The animal had broken loose and in attempting to corral it, Mrs. Benston tripped and fell to the ground. The bull charged her, inflicting internal injuries.

### ROMANCE IN "SLOP HOUSE" SURROUNDINGS

OLD ANDY, ELEVATOR MAN, DIES IN A SORDID HOME

MAN BELIEVED PENNILESS HAD FORTUNE OF \$20,000 BONDS, \$1,000 CASH

(By United Press)  
Chicago, May 16.—For over 30 years old Andy ran his freight elevator in a Michigan boulevard hotel, not taking a day off because he "could not afford it." Last week he was taken ill and went to the hotel physician for advice.

"Take a week off," he was advised. "I am too poor—I cannot afford it," old Andy replied, and he went back to his job.

Late yesterday the old man died. Under the bed in a common "Slop house," which old Andy shared with the wrecks of the "barrel house" district, police found \$20,000 in bonds, a bank book showing \$1,000 on deposit and keys to two safety deposit boxes.

### SAFETY CAMPAIGN TO CHECK DEATHS AT R. R. CROSSINGS

Chicago, May 16.—Year by year the casualty rate at railway crossings is being reduced in proportion to the number of motor vehicles in use, figures made public at the meeting of the Safety Section of the American Railway association showed. A campaign to start June 1 and continue until Sept. 30, the period of heaviest motor traffic, is scheduled for 1925 to further reduce the ratio.

"In 1921," according to the statement, "there was one casualty for every 4,397 motor vehicles registered. In 1922 for every 4,646 and in 1923 for every 5,029. In 1924 after a similar campaign the proportion was one accident to every 6,043 vehicles.

"Despite the increase in the number of automobiles this year it is expected that the casualty rate this year will show a much greater improvement than in 1924."

A poster, designed by H. Day Lowry, Richmond, Va., is to be one of the advertisements to be used in the 1925 attempt to reduce accidents. It portrays a dramatic picture of an automobile racing a train to a crossing. Platform and radio speakers will be enlisted to aid in the work symbolized by the crossing sign:

"Railway Crossing. Stop! Look! Listen!"

### RED WING AGREES TO PHONE INCREASE

CITY SIGNS STIPULATION DISMISSING ITS APPEAL

(By United Press)  
Red Wing, May 16.—The city of Red Wing late yesterday signed a stipulation with the Tri-State Telephone and Telegraph Company dismissing the appeal of the city from the recent railroad and warehouse commission's decision allowing an increase of 50 cents a month in telephone rates.

### GOVERNOR TO EXPLAIN STAND ON ECONOMY

WILL SPEAK IN MOWER COUNTY IN SPIRIT OF FARM BUREAU ATTITUDE

"YOU CAN'T REDUCE TAXES WITHOUT STEPPING ON SOMEONE'S TOES"

(By United Press)  
Austin, Minn., May 16.—Governor Theodore Christianson will appear before the voters of Mower county to explain his attitude in shaving certain appropriations whether the county farm bureau likes it or not. This was the significance of the governor's reply to Andrew Jensen, secretary of the bureau, who withdrew an invitation to the executive to speak at the annual bureau picnic.

The invitation was withdrawn, Jensen said in his letter because of the governor's attitude in vetoing a \$100,000 item in the \$1,150,000 livestock appropriation.

Governor Christianson said he was "making no apologies" for his action in keeping his promise to the voters of the state to pare items.

"You can't reduce taxes without stepping on someone's toes," he said. "I am going to continue the course I have started and will stand or fall by that record. I intend to go before the voters of your county to justify my position whether I speak at your bureau picnic or not."

### NEW RECORD IN AUTO RUN OF "DAWN TO DUSK"

MAYOR RALPH WEBB AND PARTY TOUR FROM WINNIPEG TO MINNEAPOLIS

ACTUAL RUNNING TIME, 494 MILES, MADE IN 10 HOURS, 36 MINUTES

(By United Press)  
Minneapolis, May 16.—Mayor Ralph Webb of Winnipeg, heading a caravan of five automobiles, established a new record for travel between Winnipeg, a north point of the Jefferson highway, and Minneapolis, in a "dawn to dusk" trip yesterday. The caravan arrived here last night after 10 hours and 36 minutes' actual running time. The distance is 494 miles.

Two mishaps marred the journey. Roy Parkhill, representative of the Tourist & Convention Bureau, was burned when gasoline in the tank overflowed and ignited while he was repairing a tire at Warren, Minn. He was treated by a physician here.

Shortly afterwards one of the cars driven by Leo McCarthy blew a tire and overturned twice. P. G. Rumer, past commander of the Great War Veterans Association of Canada, was slightly injured.

### PIECE OF SKULL FOUND MAY BELONG TO CUTUP BODY

(By United Press)  
Duluth, Minn., May 16.—A piece of a skull supposed to belong to the dismembered body found last week near Canyon, Minn., was unearthed by a party of searchers late yesterday. Simultaneously with the unearthing of the skull, county officials renewed search for two men seen near the swamp about the supposed time of the butchery.

### \$205,000 BOND SALE BY RICE COUNTY

Faribault, Minn., May 16.—Bonds totalling \$205,000 will be sold by Rice county to fund warrants now outstanding. The decision was made by the county board yesterday.

### KING BORIS WILL NOT SIGN DEATH ROLL OF COMMUNISTS

(By United Press)  
Vienna, May 16.—King Boris of Bulgaria, who was attacked last previous to the cathedral outrage in which more than 200 lives were lost, has refused to sign the death warrant of communists condemned by the tribunal for the participation in these plots against the throne and government.

Several of those condemned were to have public hangings near the cathedral which was destroyed by the bomb.

### LONGEST DAY OF THE YEAR COMING SOON

MARKS OPENING OF THE DELIGHTFUL SUMMER SEASON

"BIG DIPPER" IN WESTERN SKY, END OF HANDLE DUE NORTH

(By United Press)  
Washington, May 16.—The longest day of the year comes on June 21, which is Sunday. This day, the longest of the year in the northern hemisphere, marks the opening of summer.

This month of brides is the one in which to look for the Big Dipper high in the western sky. With the end of the handle nearly due north says the American Nature Association. Bootes, which is generally spoken of as the Herdsman, is also known as the Ox-driver and is supposed to be driving the seven plough oxen, as the seven stars of the Big Dipper were also known, around the north pole of the heavens.

Arcturus, the brightest star in Bootes, is The Bear-guard, as its name signifies, and it can be easily found by prolonging the line of stars in the tail of the Great Bear or the handle of the Big Dipper toward the southeast. Some see in Bootes a hunter pursuing the Great Bear with his two hounds.

Because its chief stars form the outline of a boy's kite, Bootes is easily found. The bright orange-colored star Arcturus is at the point where the tail joins the body of the kite. This kite has two tails, however, extending to either side from Arcturus.

Arcturus is one of the three brightest stars north of the celestial equator. The other two are Vega, now far over in the northeast, and Capella in the northwest. The three stars differ greatly in color, for Vega is bluish-white; Capella, yellow; and Arcturus, orange. Vega is a shade brighter than the other two, which are exactly equal in brightness.

Arcturus is one of the nearer stars to the earth, though there is some uncertainty as to its exact distance. It is placed between twenty one and thirty six light years. A light year is equal to about six million miles and is the distance light travels in a year at the speed of 186,000 miles a second. Arcturus is also quite a giant sun, the stars being all suns, of course. Its diameter is nearly twenty million miles. That makes our sun with its diameter of only 864,000 miles look pretty small, though compared to our planet Earth with its diameter of 8,000 miles, it seems large.

Corona Borealis, next to Bootes on the east, is the Northern Crown, and it's indeed a beautiful little crown of six stars in which the second magnitude star, Gemma or Alpha, the brightest star in the semi-circle, is the jewel in the crown.

Far over in the northeast is Vega, brightest star of the northern hemisphere of the heavens, easily recognized by its diamond-like blue-white splendor and by the two small stars that form with it an equitable triangle that has no counterpart in the heavens. Vega is in Lyra, the Harp one of the smallest and most interesting constellations in the sky. It

### RURAL CREDITS BOARD MAN IS RE-ARRESTED

A. W. EWERT IS FORMER TREASURER OF SOUTH DAKOTA RURAL CREDITS BOARD

HAD SERVED 90 DAYS' SENTENCE FOR CONTEMPT OF SUPREME COURT

(By United Press)  
Pierre, S. D., May 16.—A. W. Ewert, former treasurer of the South Dakota Rural Credits Board upon release from serving a 90 days' sentence in the Beadle county jail for contempt of the Supreme Court was re-arrested as he stepped out of jail today.

He will be arraigned here in Justice Court upon his arrival on charges of embezzlement growing out of misappropriation of funds of the Rural Credits Board of approximately \$181,000.

The new complaint against Ewert was signed by Governor Carl Gunderson.

It is charged that on December 31st, 1924 Ewert as treasurer of the Rural Credits Board drew three checks on the Corn Exchange National Bank of New York against Rural Credits Account in that bank and deposited them in the National Bank of Commerce, Pierre, S. D. in the name of the Union Trust Company, which the complaint charges is a fictitious account maintained and controlled by Ewert for his personal benefit.

### RAINS HELP TO CHECK FIRES IN WISCONSIN

FOREST FIRES HAD PREVIOUSLY THREATENED SEVERAL VILLAGES

WISCONSIN NATIONAL GUARD CALLED TO FIGHT THE FIRES

(By United Press)  
Laona, Wis., May 16.—A light rain which fell here early today aided Wisconsin National guardsmen in checking forest fires in this section which last night threatened several small villages, towns and numerous lumber camps.

The national guardsmen were requested late yesterday when volunteer fire fighters who had been on the scene for the past few weeks, admitted the blazes had gotten beyond their control and would cause tremendous damage unless help in fighting them arrived.

Within three hours guardsmen from Rhinelander, Oconto, Marinette and Green Bay arrived here and were immediately dispatched to the different sections where the fires were most threatening.

The guardsmen today were scattered through different sections fighting blazes near Blackwell, Stone Lake and Crandon.

### RAIN EXTINGUISHES MANY FOREST FIRES

Stephens Point, Wis., May 16.—Rain during the night and today removed all forest fire danger in central Wisconsin. Although dry as cinders for weeks, this section escaped a heavy damage, fire being confined to brush and cut over lands.

### FARMER LOSES BARN, 14 HORSES AT FERGUS FALLS

Fergus Falls, May 16.—The barn and 14 horses on the farm of Frank Pettit, near here, were burned in a fire last night. Origin unknown.

Nes next to the huge constellation of Hercules which separates it from Corona and Bootes on the west.

### HIGH WINDS SWEEP TOWN OFF THE MAP

(By United Press)  
Oklahoma City, May 16.—The village of Tribby, near Shawnee, Okla., was virtually swept off the map early today by high winds which accompanied a rain storm general over Oklahoma, according to vague reports received here. Tribby has a population of 400. First reports failed to state whether there were any casualties.

### POLICE REPORT A COMMUNIST MURDER PLOT

CLAIM IT WAS AIMED AT ASSASSINATION OF KING ALEXANDER

INCLUDED ALSO KILLING MEMBERS PARLIAMENT, BLOWING UP SERBIAN PALACE

(By United Press)  
London, May 16.—Police discovery of a communist plot aimed chiefly at the assassination of King Alexander and members of his parliament as well as dynamiting of the Royal Palace, is announced at Belgrade, according to Central News Dispatches.

Seventeen Bolsheviks, according to dispatches, arrived recently to carry out the plot and several of them were captured as they pondered over the plan and maps.

Special police precautionary measures have been taken to frustrate the plot.

Another Belgrade message said that 25 alleged red plotters had been apprehended, and that their plans for dynamiting public buildings, as well as assassinating politicians had been seized.

### SUFFERED FROM NERVOUS BREAKDOWN

(By United Press)  
Milwaukee, May 16.—George William Peckham who shot and killed his wife and two children and then took his own life at New Orleans was born in Milwaukee 40 years ago and received an early schooling in this city.

First indications of the tragedy, according to Mrs. J. W. Gross, sister of Peckham here, came in a long distance telephone message. Mrs. Peckham who was later slain told of her husband suffering a nervous breakdown and asked that someone be sent down there at once.

### DEFECTIVE WIRING BLAMED FOR FIRE AT BIWABIK MINE

(By United Press)  
Biwabik, Minn., May 16.—Offices and warehouse of the Biwabik Mining Company were completely destroyed by fire late yesterday. It is thought the fire started from defective wiring. All records and files of the company were burned. No estimate was made of the loss.

### FROST DAMAGE NOMINAL ONE

APPLE AND PLUM NIPPED, CORN PLANTING HALTED IN SOUTH DAKOTA

(By United Press)  
Mitchell, S. D., May 16.—Although small grain sprouts have been out of the ground for some time, frost damages so far has been nominal, while the apple and plum will be of little value, farmers report. Corn planting has been halted by many farmers in this section, because of adverse weather conditions.

### SIoux INDIAN SAYS HE SAW FRAZIER ALIVE

LATTER WAS IN "BULL PEN" OF YANKEE HOSPITAL IN FRANCE

INCIDENT OCCURRED AFTER THE ARMISTICE WAS SIGNED

(By United Press)  
Minneapolis, May 16.—Arthur Lopez-Frazier scored an important victory when Shadrick Ponca, Sioux Indian, declared he saw Frazier in the "bull pen" of an American hospital in France after the armistice was signed. This testimony was introduced shortly before the identification case instituted against the government by Frazier was adjourned until Monday in federal district court.

Several tangles occurred during the afternoon session of the case when Frazier confronted by Mr. and Mrs. Steve Acosta, uncle and aunt of Arthur Lopez, declared he had never seen them before. Lopez-Frazier later declared he knew nothing of a letter introduced in the records written to Acosta and addressed "Dear Uncle."

Sharp clashes between LaFayette French, Jr., United States District Attorney, and Homer Brown, chief counsel for the plaintiff, livened the session. When Ponca took the stand, he detailed incidents during the early life of the Indian war veteran. Ponca claimed he was a boyhood chum of Frazier.

The Sioux Indian served overseas with a machine gun battalion of the Rainbow division and was gassed during the Argonne engagement. While traveling from one hospital to another, he testified he saw Frazier in the hospital for shell shocked soldiers.

### GRAIN FUTURES STRONG FINISH

MANIFESTED AT CHICAGO BOARD OF TRADE IN TRADING Today

(By United Press)  
Chicago, May 16.—The grain futures had a strong finish on the Chicago board of trade today.

Wheat rallied sharply from an early dip on spirited buying inspired by fears of crop deterioration in the northwest with the return of cooler weather. According to local readers weekly statistics to be issued Monday will be bullish.

Sharp covering by yesterday sellers and new outside investment buying sent corn upward.

Oats acted heavy. Buying by cash interests boosted May a fraction. July was unchanged without feature and September made a good gain on unfavorable growing weather. Provisions held steady. Packing selling offsets strong hogs and buying for foreign account.

### FRENCH BREAK THROUGH RIFF ENCIRCLED POINT

(By United Press)  
Rabat, Morocco, May 16.—A French outpost at Oulez which had been encircled by Riff warriors of Abdel Krim for a fortnight was released by French troops yesterday after sharp fighting, according to an official communication.

Riff enforcements are being rushed to the aid of the Harka tribe on the east of the Moroccan war zone. In the center where Col. Freydenberg is in command, the situation is unchanged.

Columbia University Library has added the millionth volume to its steadily growing collection. The education section is on four floors of the new building of Teachers College.

SAFETY CAMPAIGN TO CHECK DEATHS AT R. R. CROSSINGS

Chicago, May 16.—Year by year the casualty rate at railway crossings is being reduced in proportion to the number of motor vehicles in use, figures made public at the meeting of the Safety Section of the American Railway association showed. A campaign to start June 1 and continue until Sept. 30, the period of heaviest motor traffic, is scheduled for 1925 to further reduce the ratio.

"In 1921," according to the statement, "there was one casualty for every 4,397 motor vehicles registered. In 1922 for every 4,646 and in 1923 for every 5,029. In 1924 after a similar campaign the proportion was one accident to every 6,043 vehicles.

The guardsmen today were scattered through different sections fighting blazes near Blackwell, Stone Lake and Crandon.

### RAIN EXTINGUISHES MANY FOREST FIRES

Stephens Point, Wis., May 16.—Rain during the night and today removed all forest fire danger in central Wisconsin. Although dry as cinders for weeks, this section escaped a heavy damage, fire being confined to brush and cut over lands.

### FARMER LOSES BARN, 14 HORSES AT FERGUS FALLS

Fergus Falls, May 16.—The barn and 14 horses on the farm of Frank Pettit, near here, were burned in a fire last night. Origin unknown.

Lies next to the huge constellation of Hercules which separates it from Corona and Bootes on the west.

### HIGH WINDS SWEEP TOWN OFF THE MAP

(By United Press)  
Oklahoma City, May 16.—The village of Tribby, near Shawnee, Okla., was virtually swept off the map early today by high winds which accompanied a rain storm general over Oklahoma, according to vague reports received here. Tribby has a population of 400. First reports failed to state whether there were any casualties.

### POLICE REPORT A COMMUNIST MURDER PLOT

CLAIM IT WAS AIMED AT ASSASSINATION OF KING ALEXANDER

INCLUDED ALSO KILLING MEMBERS PARLIAMENT, BLOWING UP SERBIAN PALACE

(By United Press)  
London, May 16.—Police discovery of a communist plot aimed chiefly at the assassination of King Alexander and members of his parliament as well as dynamiting of the Royal Palace, is announced at Belgrade, according to Central News Dispatches. Seventeen Bolsheviks, according to dispatches, arrived recently to carry out the plot and several of them were captured as they pondered over the plan and maps.

Special police precautionary measures have been taken to frustrate the plot.

Another Belgrade message said that 25 alleged red plotters had been apprehended, and that their plans for dynamiting public buildings, as well as assassinating politicians had been seized.

SUFFERED FROM NERVOUS BREAKDOWN

(By United Press)  
Milwaukee, May 16.—George William Peckham who shot and killed his wife and two children and then took his own life at New Orleans was born in Milwaukee 40 years ago and received an early schooling in this city.

First indications of the tragedy, according to Mrs. J. W. Gross, sister of Peckham here, came in a long distance telephone message. Mrs. Peckham who was later slain told of her husband suffering a nervous breakdown and asked that someone be sent down there at once.

### DEFECTIVE WIRING BLAMED FOR FIRE AT BIWABIK MINE

(By United Press)  
Biwabik, Minn., May 16.—Offices and warehouse of the Biwabik Mining Company were completely destroyed by fire late yesterday. It is thought the fire started from defective wiring. All records and files of the company were burned. No estimate was made of the loss.

### FROST DAMAGE NOMINAL ONE

APPLE AND PLUM NIPPED, CORN PLANTING HALTED IN SOUTH DAKOTA

(By United Press)  
Mitchell, S. D., May 16.—Although small grain sprouts have been out of the ground for some time, frost damages so far has been nominal, while the apple and plum will be of little value, farmers report. Corn planting has been halted by many farmers in this section, because of adverse weather conditions.

### SIoux INDIAN SAYS HE SAW FRAZIER ALIVE

LATTER WAS IN "BULL PEN" OF YANKEE HOSPITAL IN FRANCE

INCIDENT OCCURRED AFTER THE ARMISTICE WAS SIGNED

(By United Press)  
Minneapolis, May 16.—Arthur Lopez-Frazier scored an important victory when Shadrick Ponca, Sioux Indian, declared he saw Frazier in the "bull pen" of an American hospital in France after the armistice was signed. This testimony was introduced shortly before the identification case instituted against the government by Frazier was adjourned until Monday in federal district court.

Several tangles occurred during the afternoon session of the case when Frazier confronted by Mr. and Mrs. Steve Acosta, uncle and aunt of Arthur Lopez, declared he had never seen them before. Lopez-Frazier later declared he knew nothing of a letter introduced in the records written to Acosta and addressed "Dear Uncle."

Sharp clashes between LaFayette French, Jr., United States District Attorney, and Homer Brown, chief counsel for the plaintiff, livened the session. When Ponca took the stand, he detailed incidents during the early life of the Indian war veteran. Ponca claimed he was a boyhood chum of Frazier.

The Sioux Indian served overseas with a machine gun battalion of the Rainbow division and was gassed during the Argonne engagement. While traveling from one hospital to another, he testified he saw Frazier in the hospital for shell shocked soldiers.

### GRAIN FUTURES STRONG FINISH

MANIFESTED AT CHICAGO BOARD OF TRADE IN TRADING TODAY

(By United Press)  
Chicago, May 16.—The grain futures had a strong finish on the Chicago board of trade today.

Wheat rallied sharply from an early dip on spirited buying inspired by fears of crop deterioration in the northwest with the return of cooler weather. According to local readers weekly statistics to be issued Monday will be bullish.

Sharp covering by yesterday sellers and new outside investment buying sent corn upward.

Oats acted heavy. Buying by cash interests boosted May a fraction. July was unchanged without feature and September made a good gain on unfavorable growing weather. Provisions held steady. Packing selling offsets strong hogs and buying for foreign account.

### FRENCH BREAK THROUGH RIFF ENCIRCLED POINT

(By United Press)  
Rabat, Morocco, May 16.—A French outpost at Oulez which had been encircled by Rif warriors of Abdel Krim for a fortnight was released by French troops yesterday after sharp fighting, according to an official communication.

Rif reinforcements are being rushed to the aid of the Harka tribe on the east of the Moroccan war zone. In the center where Col. Freydenberg is in command, the situation is unchanged.

Columbia University Library has added the millionth volume to its steadily growing collection. The education section is on four floors of the new building of Teachers College.

the jury until Monday morning, at which time the calendar will be resumed.

Two cases which were to have come to trial on Friday or Saturday were settled out of court, after they had been set for trial. One was the case of Edward Newgord against Fred Johnson, C. C. Bowen and A. J. Weliver, doing business as the Ten Thousand Lakes Garage, in which the plaintiff sought to recover \$30,000 damages, alleged to have occurred in an automobile accident in which Mr. Newgord lost the sight of one eye.

The second was the case of F. E. Murphy against the Minnesota Power and Light Co., which was set for trial on Saturday morning.

The court intends to take up the criminal calendar early next week. The time required to complete these cases cannot be estimated. Some civil cases have been continued over to the adjourned term which is planned for the middle of June.

the jury until Monday morning, at which time the calendar will be resumed.

Two cases which were to have come to trial on Friday or Saturday were settled out of court, after they had been set for trial. One was the case of Edward Newgord against Fred Johnson, C. C. Bowen and A. J. Welliver, doing business as the Ten Thousand Lakes Garage, in which the plaintiff sought to recover \$30,000 damages, alleged to have occurred in an automobile accident in which Mr. Newgord lost the sight of one eye.

The second was the case of F. E. Murphy against the Minnesota Power and Light Co., which was set for trial on Saturday morning.

The court intends to take up the criminal calendar early next week. The time required to complete these cases cannot be estimated. Some civil cases have been continued over to the adjourned term which is planned for the middle of June.

Worked Miracles With County Road System, Says County Highway Engineer Murphy

## ROADS REVIEWED IN DETAIL

State Road No. 3 Brainerd to Emily in Best Condition of Any Highways

Friday night's rain worked miracles with the county road system, according to County Highway Engineer, Walter M. Murphy, who gives the following report on the highways under his supervision:

State Road No. 2. (Dewey highway through southern tier of townships.) Three miles of this road is under construction, being a cut-off that will shorten the highway about seven miles. P. M. Roark has the contract for the grading, and is pushing it as rapidly as possible, but is being delayed because of rains in that section, and the fact that the work is in clay soil. A. B. Peterson, of Little Falls, began his contract on the bridge across Daggett brook on this road last Wednesday. This structure is to carry a 20 foot span, and will be of ornamental design, costing about \$2,500. The Dewey highway, when completed will open up a new farming community that should be tributary to Brainerd. It will also form a connecting link between Trunk Highways No. 27 at Ft. Ripley, and 18 at Mille Lacs.

State Road No. 3. (Brainerd, Merrifield, Cross Lake, Emily). This road is in the best condition of any in the county, it is reported. While it has been very dusty, the rain of last night stopped that difficulty. A short piece of this road at Cross Lake is not gravelled, otherwise the entire length is excellent.

State Road No. 4. (Crosby north to Emily and Outing). Crosby north to river bridge is under construction. The Humphrey Construction Co., has practically completed the grading of this section, and bids will be let at the June meeting of the county commissioners for graveling of the road. Road is very good from bridge north to Emily and Outing.

State Road No. 5. (Deerwood south to Bay Lake and Trunk Highway No. 18). This road, while one of the shortest in the county, affords one of the most beautiful, scenic drives,

## Saturday Afternoon Holiday

For First National Bank Employees During the Months June, July and August

The First National Bank is again preparing to observe the Saturday hours this year according to the action taken by the Directors about a year ago when they amended the By Laws by making the business hours for Saturday from 9:00 o'clock A. M. to 1:00 o'clock P. M., during the months of June, July and August.

This will enable the employees to enjoy a few more hours of out door recreation during the summer season, thereby better fitting themselves physically for their work during the long, cold winter months to follow.

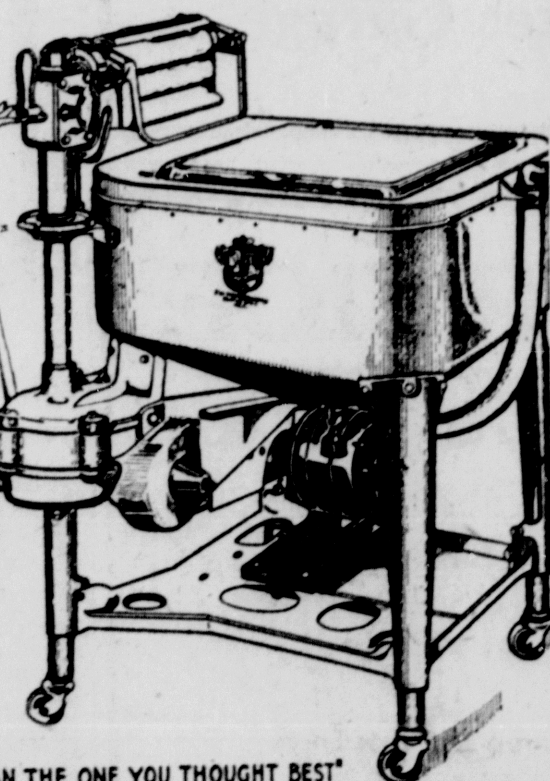

This plan seemed to work very successfully last season and it is hoped that the patrons of the bank will enter into the spirit of the change, made for the benefit of the employees, and arrange their business in such a manner as to avoid any inconvenience.

FORD AND HIS LATEST OFFER

If there is anything big in this country, from the presidency to running Muscle Shoals power plant, the name of Henry Ford has been linked with it. The latest front page publicity accorded Mr. Ford, and the publicity, by the way, is so valuable you cannot compute it in mere dollars and cents, is the offer make by him to buy 400 old ships of the government.

He is expected to scrap the steel and use it in making flivvers. We like to hark back to days of the dim past in India where transmigration of souls is a doctrine and it may give us a measure of relief to know then that our idle and stale fleet of 400 old boats may be transmogrified into millions of Henry's little flivvers, and in flivvers shape that fleet will have more kick and action and do more service than the steel ever did tied up to moldering docks.

In all Henry's publicity stuff, and keen minds are guiding his announcements, Henry hits the front page with as much regularity as Sisler daily hitting safely for the Browns.

You must give Ford credit for doing remarkable things. His hand touched river navigation on the upper Mississippi and the business, idle for ages, has sprung to life.

His hand touched commercial flying and all-metal plane service is now carrying freight.

Henry has a habit of making his visions come true and he doesn't dream in secret. His publicity department spreads the news to the four corners of the world. Like his flivver, Henry goes anywhere and everywhere in the marts of trade, in the conquest of raw material, in the extension of trade territory, in the using of new routes of trade whether air, water or land, etc.

A JUST DECISION

FRANK BEDOCH has been released from jail and the Sherburne county grand jury acted in a just manner by so ordering the man's release. Bedoch, it will be remembered, was arrested in Elk River last December and held in the county jail on a manslaughter charge, after his tar-paper home burned to the ground and his five children burned in the flames.

As Bedoch related the tragedy, he was attempting to kindle a fire with green wood when the airtight stove which heated the shack in which his family lived, exploded and scattered the flames. In the confusion, he ran out of doors and his wife, in a delicate condition, also escaped, but the five small children were burned to death. Bedoch was badly burned in trying to return and rescue the little ones.

Any one who ever saw a tar-paper shack burn, knows that the structure fairly explodes into flame. Dry walls, dry tar paper, offer no fire resisting surface. Bedoch's cup of misery was filled to the brim, when after losing his five children, with a sick wife on his hands, he was kept imprisoned in a county jail for five months awaiting action of a grand jury.

THE small boy will give his sympathetic interest to a paragraph of the daily news which states that the soviet government has found a tribe of 600 people in Siberia, who never wash their bodies, clothes or kitchen utensils. These strange people were like many small boys, they had to be forced to take a bath and one of them died of fright.

BECAUSE he drove with one hand and had the other arm around a girl's waist, a Cheshire, England, man recently was fined in court "for not having control of his car." The court, no doubt, reasoned he paid more attention to the girl than the car. Or, one might say, one-armed hugging is as satisfactory as one-armed driving.

FOND mothers checking up the ambitions of their four-year-old hopefuls as to future vocations, received the responses that one wished to become a janitor and the other a boilermaker. Pressed as to reasons, one said the janitor had more authority than a policeman and the other liked noise a-plenty.

SOME opposition people, against the claims made by Arthur Frazier, supposed Indian war veteran, take exception to his answer of, "I don't remember," given to many questions asked him. That's the same answer a lot of trust magnates have given on the stand when cross examined in the past.

ABBY ROCKEFELLER MILTON and her young lawyer husband will have to economize and pinch and keep the wolf from the door of their modest apartments in New York on \$23,000 a year. Of this income, \$15,000 is the husband's.

THE need of proper punctuation is exemplified in a recent law suit, where a lacking comma in a land grant is declared worth millions in a Northern Pacific railway company suit.

A BLACK line of boats, 1,500 of them, stretching along the 30 miles of the west shore of Mille Lacs lake, greeted Their Majesties, Mr. and Mrs. Pike, yesterday morning.

THERE is one thing in the Arthur Lopez-Frazier identification case not noticed by many people. The government is fighting to back up its records and show they are correct.

THE government has started reading magazines and is finding a number of popular priced ones "obscene and indecent."

THE Riff fighters evidently know how to rough it. After defeating Spain, they are now taking on France.

CROSS crossings carefully and increase the days of yourself and your machine in the land.

Remove Your Wrinkles

Better than massage for removing wrinkles and age lines, far less expensive and bothersome, is a simple tar-root mixture which any woman can prepare and apply in a jiffy. Almost immediately after spreading this over the face there is a pleasant, soothing sensation and the mirror shows the horrid age lines and "sags" disappearing like magic. In less than fifteen minutes the face is as smooth and firm as a school-girl's. Seems almost too good to be true, but the actual experience quickly removes all doubt.

Lame muscles limber up with one application of McConnon's Red Liniment.

the good old standby of the McConnon Line. A proved success for over 22 years. McConnon's Red Liniment has saved thousands from pain and discomfort. Is used effectively internally for stomach-ache, pain in bowels, diarrhea, dysentery or flux, colds and chills. Externally, Red Liniment is applied freely to the affected part for rheumatism, insect bites, sprains and bruises.

A good, powerful liniment, such as McConnon's Red Liniment, is a distinct boon to mankind. It has its allotted place in the household and is generally recognized as occupying a position in the treatment of human ills that never can be approached by any other method. McConnon's Red Liniment is safe, both for man and beast, external and internal use.

McConnon's Red Liniment has for years been used internally and externally for animals; internally in bad cases of bloat, dysentery, etc.; externally for lameness, swellings, sweeney, fresh cuts and wounds.

McConnon's Red Liniment is sold in your community by the "McConnon Man." You can place implicit confidence in him. Our primary requirement for a "McConnon Man" is that he shall always be courteous and gentlemanly. Wait for him!

## FORD AND HIS LATEST OFFER

If there is anything big in this country, from the presidency to running Muscle Shoals power plant, the name of Henry Ford has been linked with it. The latest front page publicity accorded Mr. Ford, and the publicity, by the way, is so valuable you cannot compute it in mere dollars and cents, is the offer made by him to buy 400 old ships of the government.

He is expected to scrap the steel and use it in making flyovers. We like to hark back to days of the dim past in India where transmigration of souls is a doctrine and it may give us a measure of relief to know that our idle and stale fleet of 400 old boats may be transmogrified into millions of Henry's little flyovers, and in flyovers shape that fleet will have more kick and action and do more service than the steel ever did tied up to moldering docks.

In all Henry's publicity stuff, and keen minds are guiding his announcements, Henry hits the front page with as much regularity as Sisler daily hitting safely for the Browns.

You must give Ford credit for doing remarkable things. His hand touched river navigation on the upper Mississippi and the business, idle for ages, has sprung to life.

His hand touched commercial flying and all-metal plane service is now carrying freight.

Henry has a habit of making his visions come true and he doesn't dream in secret. His publicity department spreads the news to the four corners of the world. Like his flyover, Henry goes anywhere and everywhere in the marts of trade, in the conquest of raw material, in the extension of trade territory, in the using of new routes of trade whether air, water or land, etc.

## SNOW AND RAIN IN NORTH WOODS

### CHECKS MANY SCATTERING FIRES IN MINNESOTA

(By United Press)  
St. Paul, May 16.—Snow and rain in the north woods of Minnesota today had checked the scattered fires which during the middle of the week assumed somewhat alarming proportions. It was announced by the state forester's office here.

North of Duluth snow fell last night greatly aiding the fire fighters to quench the stubborn brush fires. Rain in the northern part of the state proved effective and forestry officials feel there is no immediate danger of a recurrence.

### ALASKAN INDIANS MADE FIRST HOOTCH

Los Angeles, May 16.—Since Volstead, "whisky" and "booze" have given way to "hootch." Rev. S. H. Young, who was a missionary in Alaska during the "gold rush" days, says the word "hootch" came from Alaska. The retired missionary says in the old days the "Hootchenos," a tribe of Alaskan Indians, made a powerful concoction from fermented molasses and called it "hootch." Now hootch is made from anything from corn and potatoes to old iron, sulphuric acid and hair oil.

### "ENCHANTED FLUTE" AT CARLETON COLLEGE

(By United Press)  
Northfield, Minn., May 16.—Practically every co-ed on the campus will be included in the "Enchanted Flute," a fairy tale which will be presented at the Annual Carleton College May Fete, a school tradition.

The story centers around the possession of a magic flute which calls the fairies to its owner, thus furnishing the theme for many novel costumes and dances.

Election of the May Queen, which was conducted several weeks ago, will be formally announced at the start of the ceremonies today.

## WALTER JOHNS TO BE ARRESTED

### CHARGED HE WAS MASTER MIND INDUCING MRS. WISE TO POISON 17

(By United Press)  
Medina, Ohio, May 16.—Walter Johns of Cleveland will be arrested today on a first degree murder charge in connection with the hard-scrabble poison. John was arrested after confession of Mrs. Wise under sentence to life imprisonment that he was the master mind who induced her to poison 17 relatives, three of whom died. A night of grilling has failed to break down his structure of evasive answers, authorities said.

## TODAY'S DISPATCH CROSS WORD PUZZLE

### HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

## RECORD TOURIST SEASON LOOKED FOR

(By United Press)  
Bemidji, May 16.—One of the largest and most successful tourist seasons in history is indicated by the early registration at the Diamond Point camp. Increased numbers of tourists, coming from Illinois, Michigan, Wisconsin and North and South Dakota, are registering at the camp daily.

It is estimated that the 10,000 registration record set last year will be

eclipsed by approximately 5,000 during the season this year.

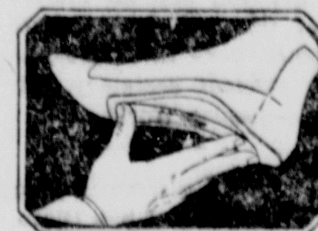

## County Warrants Called for Payment

All road and bridge warrants, registered up to and including May 24, 1924; and all county revenue warrants registered up to and including February 25, 1925; and all poor warrants registered up to and including April 23, 1925, are called for payment. Interest will cease 30 days from the date of this notice.

Pains, cramps or callouses at ball of foot indicate that arch has broken down. Dr. Scholl's Foot Comfort Appliances quickly relieve and correct this condition.

Dr. Scholl's Foot-Ezzer relieves tired, aching feet, weak and broken-down arches, weak ankles, painful heels, and other foot troubles. Worn in any shoe. Light, comfortable and springy. \$4.50 per pair.

Dr. Scholl's Bunion Reducer instantly relieves bunions, prevents friction and pressure, preserves shape of the shoe, and gradually reduces growth by absorption. 75c each.

## Free Foot Comfort DEMONSTRATION Tuesday, May 19

For the benefit of foot sufferers, this store will conduct a Special Foot Comfort Demonstration. In charge of this important work is a foot comfort expert from Chicago, who has been specially trained in the Dr. Scholl Method of Foot Comfort. This is an exceptional opportunity for you to secure a full measure of real, genuine, foot comfort.

### What is your foot trouble?

Your trouble may be simply a corn, a callous or a bunion, or it may be the result of weak and broken-down arches, or some other form of foot trouble. It costs you nothing to learn the true condition of your feet and why they ache, pain and cause so much suffering.

## Free Podo-graph picture made of your feet

In a few seconds' time, without removing the shoe, he can make a photographic print of your foot that positively shows if you do have foot troubles and to what stage the trouble has progressed. This service is absolutely free and places you under no obligation whatever.

## SNOW AND RAIN IN NORTH WOODS

### CHECKS MANY SCATTERING FIRES IN MINNESOTA

**TODAY**  
(By United Press)  
St. Paul, May 16.—Snow and rain in the north woods of Minnesota today had checked the scattered fires which during the middle of the week assumed somewhat alarming proportions, it was announced by the state forester's office here.

North of Duluth snow fell last night greatly aiding the fire fighters to quench the stubborn brush fires. Rain in the northern part of the state proved effective and forestry officials feel there is no immediate danger of a recurrence.

### ALASKAN INDIANS MADE FIRST HOOTCH

Los Angeles, May 16.—Since Volstead, "whisky" and "booze" have given way to "hootch," Rev. S. H. Young, who was a missionary in Alaska during the "gold rush" days, says the word "hootch" came from Alaska. The retired missionary says in the old days the "Hootchenos," a tribe of Alaskan Indians, made a powerful concoction from fermented molasses and called it "hootch." Now hootch is made from anything from corn and potatoes to old iron, sulphuric acid and hair oil.

### "ENCHANTED FLUTE" AT CARLETON COLLEGE

(By United Press)  
Northfield, Minn., May 16.—Practically every co-ed on the campus will be included in the "Enchanted Flute," a fairy tale which will be presented at the Annual Carleton College May Fete, a school tradition.

The story centers around the possession of a magic flute which calls the fairies to its owner, thus furnishing the theme for many novel costumes and dances.

Election of the May Queen, which was conducted several weeks ago, will be formally announced at the start of the ceremonies today.

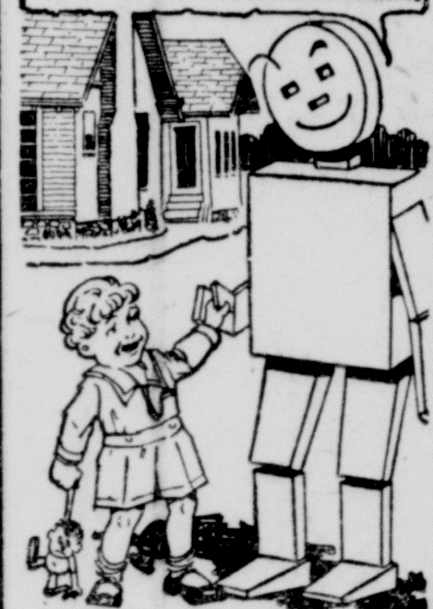

### Samson and Delilah

London, May 16.—Sam Booth, a porter in a railway station here, has a mustache that is the pride of his heart, but not his wife's. It measures a foot from tip to tip. He woke up just in time to catch his wife, trying to clip it off. Ever since he has called her Delilah.

### Solution to Yesterdays Puzzle

### WALTER JOHNS

#### TO BE ARRESTED

#### CHARGED HE WAS MASTER MIND INDUCING MRS. WISE TO POISON 17

(By United Press)  
Medina, Ohio, May 16.—Walter Johns of Cleveland will be arrested today on a first degree murder charge in connection with the hard-scrabble poison. John was arrested after confession of Mrs. Wise under sentence to life imprisonment that he was the master mind who induced her to poison 17 relatives, three of whom died. A night of grilling has failed to break down his structure of evasive answers, authorities said.

Lively's stock of Ford parts is complete in every detail. Open day and night.

#### Brother Williams

De worl' ain't in no hurry 'bout comin' to a end. De fact is it's got so much ter answer for dat it ain't had time to make out de specifications.—Atlanta Constitution.

#### Good Business Idea

It was before the day of tin lizzies, and one Kentucky merchant sold lots of buggy harness to farmers who paid up once a year.

One day his clerk sold a set of buggy harness and did not charge it promptly. When he did start to charge the harness he had forgotten to whom to charge it.

"Charge every man on the books with a set of harness and when they raise a kick, take the harness from their account," the boss told him.

There were 180 names on the books, and but two kicked.—Good Hardware.

#### Question?

"I say, doctor, did you ever doctor another doctor?"

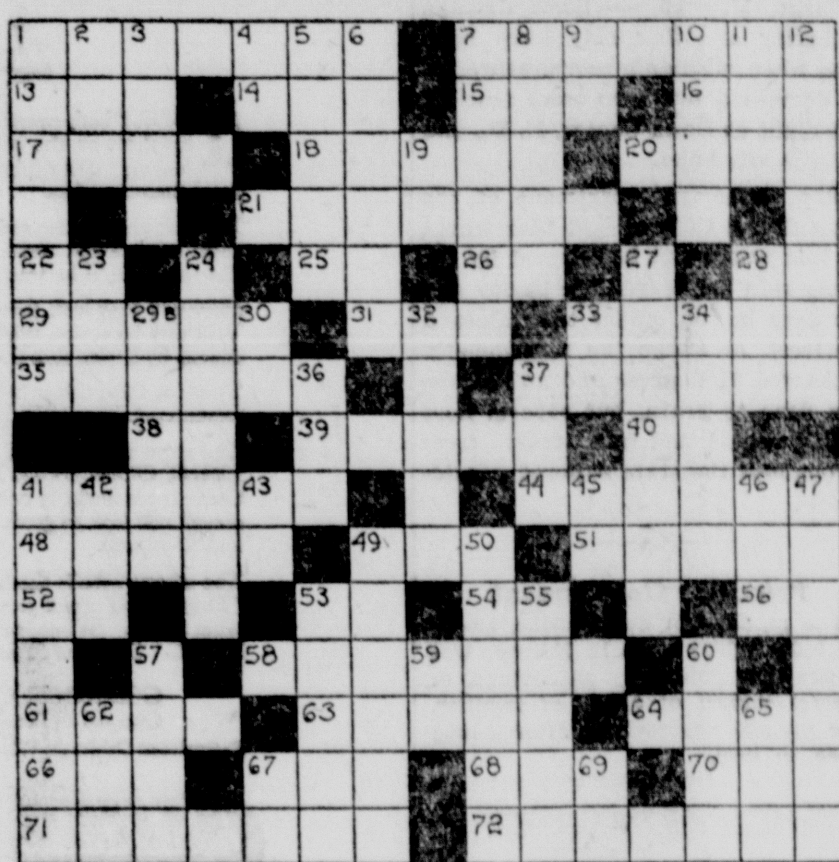

"Oh, yes."

"Well, does a doctor doctor a doctor the way the doctored doctor wants to be doctored, or does the doctor doing the doctoring doctor the other doctor in his own way?"

### TODAY'S DISPATCH CROSS WORD PUZZLE

#### HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

### RECORD TOURIST SEASON LOOKED FOR

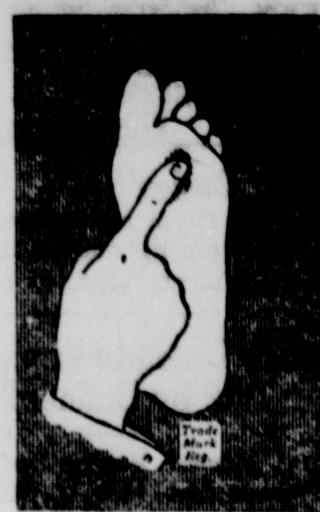

(By United Press)  
Bemidji, May 16.—One of the largest and most successful tourist seasons in history is indicated by the early registration at the Diamond Point camp. Increased numbers of tourists, coming from Illinois, Michigan, Wisconsin and North and South Dakota, are registering at the camp daily.

It is estimated that the 10,000 registration record set last year will be eclipsed by approximately 5,000 during the season this year.

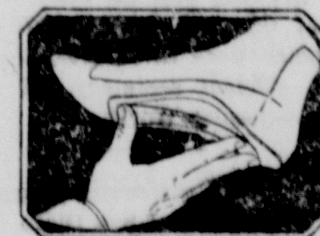

### County Warrants Called for Payment

All road and bridge warrants, registered up to and including May 24, 1924; and all county revenue warrants registered up to and including February 25, 1925; and all poor warrants registered up to and including April 25, 1925, are called for payment. Interest will cease 30 days from the date of this notice.

## NEW AUTO CO. STARTED IN CITY

Chryswell Motor Co. Enters Brainerd With Fleet of Chrysler and Maxwell Cars

### SHOW NEW CHRYSLER SIX

Temporary Floor Space Engaged at the 10,000 Lakes Garage

The Chryswell Motor Company has entered Brainerd with a fleet of Chrysler and Maxwell cars, and will establish an agency here, temporary floor space having been engaged at the 10,000 Lakes Garage.

When the Chrysler six made its first bow to the public at the New York auto show and in some 40 leading centers, the interest it created was largely the result of Mr. Chrysler's established reputation as giving to the Packard car its design and efficiency from an automobile engineering point.

By the spring selling season of 1924 the factory was overwhelmed there having been 12,000 Chryslers sold before even one was delivered. Orders were received on specifications, which was a great tribute to Mr. Chrysler's ability as an engineer. This condition prevailed throughout the 1924 season, to such an extent that 32,000 cars were produced to meet the public demand.

Mr. Chrysler's personal endorsement of the New Good Maxwell brought out the announcements of a four cylinder car that would give 25 miles to the gallon of gasoline, 58 miles per hour speed, and a pick up from five to 25 miles per hour in eight seconds.

This has swept the good Maxwell out of a position of weakness into one of the great strength, and is making it a very popular car in the four cylinder class.

The traveling salesmen are a good barometer in showing in their selection the popular service car, and the Maxwell sales have shown that 75 per cent of their sales have gone to the knights of the grip.

The advertisement of the Chryswell Motor Company is displayed in this issue of the Dispatch.

### Weeds Meaner Than "Pusley"

A popular vote on the meanest weed probably would show a decision for the grass known in many sections as, "devil grass," the annual grass that comes up in great quantities in the garden and if given a chance spreads out and roots at every joint and sends up forked heads of seed. The particular devilishness of this grass which has earned its name is that it always breaks off and leaves the root to grow again when you try to pull it when it is young.

It needs to be hoed. Get the hoe in operation so none of these mean weeds get a start. "Pusley," or more properly purslane used as a synonym for meanness for years, is much abused. It is a comparatively harmless weed easily pulled up and which takes little from the soil as it has a small root system.

Docks and dandelions with their long tap roots are tough customers once they get going. They must be hoed deep or the leaves merely are amputated to grow with renewed vigor. An asparagus knife, a tool with a notched end is excellent to stab these intruders beneath the soil, cutting the taproot and tossing them out of the soil to die.

The chickweed is one of the worst pests, particularly in the flower garden and in shady portions of the premises. It has to be shaved off. It can be found in bloom under leaves almost any winter month in the year when there is a thaw. The ice coating of the past winter, which covered the ground for many days over large sections of the country, is the one thing so far discovered that killed off chickweed. It was destroyed wholesale by this coating. Watch for the seedlings before they have a chance to branch out and send down their hairlike roots that always break off and never pull up.

White clover is a hard pest to get rid of once it gets a start in the garden as it nails itself down at every joint and has to be pried up. A few swipes of the hoe during these early

days will check all these weeds before they can get started and reduce the labor of gardening by half.

### Rotary Listen to Inspiring Talk by Brainerd Visitor

The Monday Rotary lunch at the Congregational church parlors was well attended and Ed. Cook of Brainerd gave an inspiring talk which was greatly enjoyed. Under "Dick" Gardner's leadership, interest in the club is growing and all indications point that this will be a record year for Rotary work in Staples, according to the efficient secretary, W. H. Johnson.—Staples World.

### Old California Mission

The mission of San Diego de Alcalá, about six miles north of San Diego, is the oldest of the missions in California. It was founded by the Franciscan father, Junipero Serro, in the year 1769.

## COLD WEATHER DOES DAMAGE

### BARLEY AND FLAX CAN'T STAND 14 ABOVE TEMPERATURE

Fargo, May 16. — Some damage to barley and flax may have been done when minimum temperatures of 14 degrees above zero were reached last night at Dunn Center, N. D., and 18 at Devils Lake.

The Economy Department of the Agricultural College said that wheat or oats would not be harmed by the frosty rain but feared the barley and flax may be too tender to withstand the frost. At Fargo the thermometer registered 31 degrees and no damage was done to grain, but reports here said garden truck and fruit trees throughout the state suffered considerable.

# Which will be you? three months from now

TODAY both overalls look just about alike to you. You see them on the counter—new, comfortable and sturdy looking. It's really hard to tell which one should cost more than the other.

But look ahead three months from now. You're going to give them some rough treatment during that time. They'll get dirty and they'll be washed.

How will they look then? Will they still fit comfortably? Will they be a nice, bright blue? Will they be free from rips caused by strains that the cloth should have withstood.

Think of these things when you buy the overall, instead of regretting them months later when it's too late.

The extra strength and longer wear that are in the heavy EIGHT OUNCE CLOTH of which only Oshkosh B'Gosh Overalls are made is one reason why you may be sure the overall will look as good to you next month as it does today and fit as well.

The other reason is the famous Oshkosh B'Gosh guarantee—"They MUST make good or we will," which means exactly what it says. When next you buy, INSIST on Oshkosh B'Gosh. Shift the responsibility to us.

It can be found in bloom under leaves almost any winter month in the year when there is a thaw. The ice coating of the past winter, which covered the ground for many days over large sections of the country, is the one thing so far discovered that killed off chickweed. It was destroyed wholesale by this coating. Watch for the seedlings before they have a chance to branch out and send down their hairlike roots that always break off and never pull up.

White clover is a hard pest to get rid of once it gets a start in the garden as it nails itself down at every joint and has to be pried up. A few swipes of the hoe during these early

days will check all these weeds before they can get started and reduce the labor of gardening by half.

### Rotary Listen to Inspiring Talk by Brainerd Visitor

The Monday Rotary lunch at the Congregational church parlors was well attended and Ed. Cook of Brainerd gave an inspiring talk which was greatly enjoyed. Under "Dick" Gardner's leadership, interest in the club is growing and all indications point that this will be a record year for Rotary work in Staples, according to the efficient secretary, W. H. Johnson.—Staples World.

## COLD WEATHER DOES DAMAGE

BARLEY AND FLAX CAN'T STAND 14 ABOVE TEMPERATURE

Fargo, May 16. — Some damage to barley and flax may have been done when minimum temperatures of 14 degrees above zero were reached last night at Dunn Center, N. D., and 18 at Devils Lake.

The Economy Department of the Agricultural College said that wheat or oats would not be harmed by the frosty rain but feared the barley and flax may be too tender to withstand the frost. At Fargo the thermometer registered 31 degrees and no damage was done to grain, but reports here said garden truck and fruit trees throughout the state suffered considerable.

# Which will be you?

three months from now

TODAY both overalls look just about alike to you. You see them on the counter—new, comfortable and sturdy looking. It's really hard to tell which one should cost more than the other.

But look ahead three months from now. You're going to give them some rough treatment during that time. They'll get dirty and they'll be washed.

How will they look then? Will they still fit comfortably? Will they be a nice, bright blue? Will they be free from rips caused by strains that the cloth should have withstood.

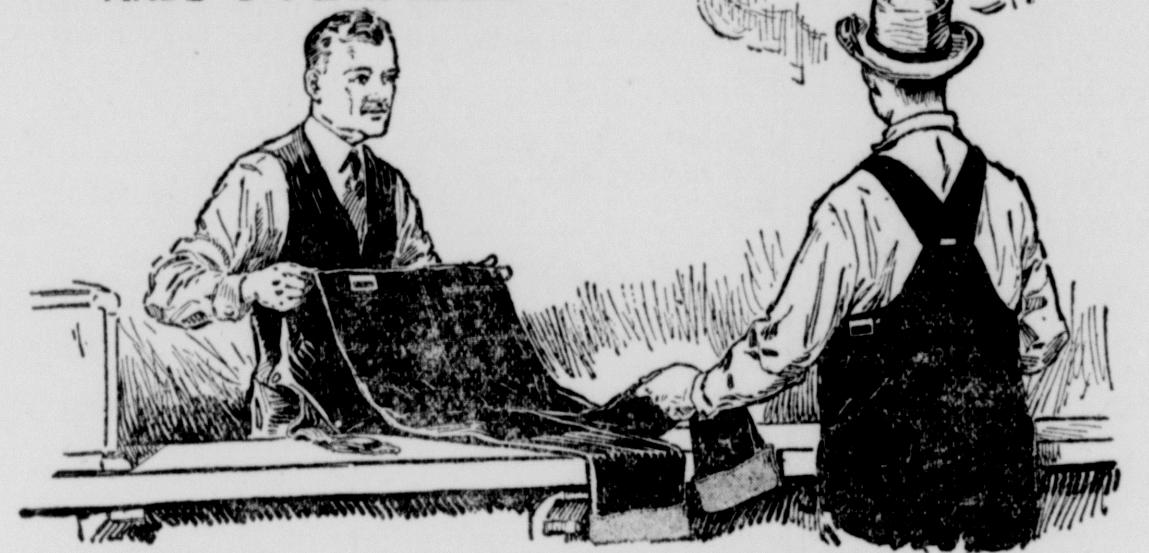

Think of these things when you buy the overall, instead of regretting them months later when it's too late.

The extra strength and longer wear that are in the heavy EIGHT OUNCE CLOTH of which only Oshkosh B'Gosh Overalls are made is one reason why you may be sure the overall will look as good to you next month as it does today and fit as well.

The other reason is the famous Oshkosh B'Gosh guarantee—"They MUST make good or we will," which means exactly what it says. When next you buy, INSIST on Oshkosh B'Gosh. Shift the responsibility to us.

## TOUR TO SEE NEW HARVESTER

Chamber Committee Invites Citizens  
to Visit Economy Harvester  
Company

AT LITTLE FALLS MONDAY

Cars to Leave Iron Exchange Building at 1 O'clock in the Afternoon

A committee of the Chamber of Commerce, so appointed by President F. H. Gruenhagen, makes this announcement:

The Economy Harvester Company temporarily located at Little Falls are seeking a new location and they think as well as others that Brainerd would be an ideal location. They contemplate manufacturing a combined harvester and threshing machine and while a machine of this kind is a rarity in Minnesota it is used very extensively on large farms and in a great many cases the use of this machine makes the difference between a loss in grain growing or a profit, for in this machine the grain is cut and threshed, the sacks tied up and deposited in piles all in one operation, where in the old plan of harvesting small grains, the grain is cut first and bound, put in shocks then stacked and after more or less delay the farmer gets the threshing machine and a crew of a dozen men to finish up the operation that with this improved machine is all done at one time.

The Economy Harvester Company have perfected the machine and have all parts fully covered by patents and while there are other combined harvester and threshing machines none of them except the Economy Harvester can be operated on side hills and none of them tie the sack up and deposit it on the ground ready to be loaded on the wagons.

This machine can be built and marketed for one-half the cost of similar machines on the market today and one advantage over the other machines is that it is not half the weight of other machines. The machine is run with a gasoline engine at very little expense. The machine is steered the same as an automobile. Two horses are used on each side of the machine simply for propelling it. The gasoline engine does all the work. One of these machines was perfected last summer and tried out in Morrison county and proved an absolute success. Last winter a small delegation of Brainerd citizens went to Little Falls and saw the machine in operation, as the company had provided themselves with a quantity of grain in shock so that they could see just how the machine worked and all were satisfied that it was the finest machine of its kind on the market.

An ideal site has been selected in Brainerd and option secured on same. Building plans have been arranged as well as estimates on machinery necessary and the Chamber of Commerce who are sponsoring the proposition feel that this is an opportunity of securing a manufacturing plant for Brainerd that in the course of a short time would add several thousand to the population of this city.

Mr. Rice, the patentee and Mr. Spencer who is a stockholder, were before the Chamber of Commerce at their last meeting and explained the project in full and it was decided to invite as many citizens of Brainerd as possible to go to Little Falls Monday, May 18, starting from in front of the Iron Exchange building at 1 o'clock and from the number of citizens that have already promised to go down, we ought to have at least fifty cars on the trip. Figuring an hour each way and one hour to inspect the machine, the citizens will only lose about three hours and it will be well worth while to anyone whether they are financially able to help this project along or not to make this trip and on this trip no one will be asked to help out financially. We want every one possible to see this machine and afterward, to make up their mind as to whether or not it would be an advantage to this section to have the manufacturing plant located here.

Quite a number of our representative citizens have already agreed to subscribe for \$1,000 worth of stock each. Now understand that no one will be asked on this trip to subscribe. We want you to see the machine so that you will be able to at least boost for Brainerd if not able to help finance the manufacturing plant, so let's get busy, have a big showing, get as many men as possible to see this machine, so we will be able to talk it up to the citizens of Brainerd that can afford to help finance it for it will mean more to Brainerd than all plants combined that have ever located here.

## GRAND OPENING OF LUM PARK

To be Signalized by May Dance Given  
by Brainerd Elks Lodge on  
Monday Evening, May 18

HEDSTROM ORCHESTRA PLAYS

Chairman Bert Boynton, the "Dance King," Has Planned Many Novelties for the Occasion

The grand opening of Lum park for this season will be signalized Monday evening, May 18, by a dance given by Brainerd Lodge of Elks at the park pavilion, and the money realized will go in the Elks state convention fund.

Chairman Bert Boynton of the Elks, known as the "dance king" of the lodge because of his success in handling their many dances, has introduced many novelties for this May dance, in the way of decorations and other effects.

Hedstrom's orchestra will furnish the music and that is a further guarantee of a good time for all who attend the function. Door rights will be exercised.

The pavilion is amply equipped with shutters which may be closed should the evening prove a bit chilly.

### MRS. ANNA JOHNSON DIED

Resident Many Years of Brainerd  
Passed Away at Home of Her  
Daughter

Mrs. Anna Johnson, for many years a resident of Brainerd, passed away at 2:45 o'clock Friday afternoon, at the home of her daughter, Mrs. I. H. Preston, death resulting from acute asthma.

Mrs. Johnson was born in Minneapolis, June 18, 1867. She came to Brainerd about 30 years ago, and has made her home here ever since. She is survived by only one child, her daughter, Mrs. Preston, 424 South Ninth street.

Always of a cheery and loving disposition, she will be sorely missed by her daughter and a large circle of friends.

The funeral will be held from the Preston home at 2:30 o'clock on Monday afternoon, Rev. J. H. Boileau, of the Bethlehem Evangelical church, officiating, with interment in Evergreen cemetery. The remains may be viewed by friends until the hour of the funeral at the home.

"Lions Minstrel Mimics" to Give  
Same For School Children of  
the City

A special matinee of the "Lions Minstrel Mimics" has been arranged for the school children of the city, and will be staged on Tuesday afternoon, May 19th, at the New Park theatre, beginning at 4 o'clock.

This matinee is arranged by the Lions club especially for the entertainment of the kiddies of the city, and a very small admission will be charged, merely to cover the expense of staging the production. It will be exactly like the evening performance, with the same comedy, snappy songs and clever dancing. All school children in the city are urged to procure tickets and see the big fun-fest.

The costumes for the "Lions Minstrel Mimics" arrived on Friday, and have been assigned to the cast, who are now having an opportunity to become accustomed to the unusual outfits that are to add so much to the effects of the production.

The evening performances on both Tuesday and Wednesday evenings, will begin promptly at 8:15 o'clock. Time will be forgotten for the next three hours of fun, except that the audience will be praying for time in which to regain their breath for another hearty laugh.

The ticket sale is going much better than was even anticipated, everyone seeming to be anxious to see this local talent production. These tickets may be purchased from members of the cast, and can be reserved at the theatre box office on or after Monday morning at 10 o'clock.

The Lions clubs of Little Falls and Wadena have been notified of the show, and each is planning to send good delegations.

Popular Orchestra to Play at New  
Park Theatre on Sunday  
Evening

Because of popular demand the Hedstrom orchestra has been engaged to play at the New Park Sunday night in conjunction with the special picture, James Oliver Curwood's "Broken Silence." Since their last engagement at the New Park the orchestra has rehearsed an entirely new program and undoubtedly this program will be highly appreciated.

The special picture to be shown on this evening—James Oliver Curwood's "Broken Silence"—is a picture of the far North with a famous dog team playing a great part in the picture. The author of this story assures it to be a good picture, and would suggest that you come early for seats.

## PIKE FISHERMEN VERY SUCCESSFUL

Sportsmen From All Sections of  
State Took Full Advantage of  
Opening

1500 BOATS AT MILLE LACS

In Practically Every Instance, the  
Occupants Caught the  
Limit

The pike fishing season opened on Friday under the most favorable conditions, and sportsmen from all sections of the state took full advantage of the opportunity, large delegations coming to the lakes in the Brainerd district.

Deputy Game Warden A. P. Cardle estimated that on Mille Lacs alone, there were 1,500 boats out, and in practically every instance, the occupants caught the limit. Three deputy game wardens patrolled the west shore of the lake, checking the boats as they returned, to see that none exceeded the limit, or took fish that were undersized. These wardens included Mr. Cardle, C. C. Lucas, of Waukon, and Bert Goff, of Glen.

One party that came from Faribault, consisting of five fishermen, caught the limit and returned home early in the afternoon. Several from St. Paul and Minneapolis had the same experience. The twin cities were well represented at the lake.

Conditions were ideal for pike fishing on Mille Lacs, especially for those on the west side of the lake. The wind blew off shore and was just strong enough to make the lake just right for fishing. Those who feared that the day would be too cold, were agreeably surprised at the rising temperature.

Mille Lacs was not the only lake where good pike fishing was found. Municipal Judge Gustav Halvorson and Carl Anderson caught 15 fine pike in one hour at Gull lake, a record that has seldom been equaled this early in the season. Other pike lakes that do not usually afford good fishing so early in the season, are proving exceptions this year, and it is expected that all will be tried out by local fishermen over the week end.

Strictly a Ford schedule is used in making our charges for repair work. You can charge it at Lively's.

## KEARNS-WALKER MEANS DEMPSEY OUT

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, May 16.—Jack Kearns gave the best evidence that has been presented yet that Jack Dempsey is not going to fight again when he signed Mickey Walker to a five-year contract.

The job of handling the business affairs for a heavyweight champion of the world is enough to keep any one man occupied and it is improbable that Kearns would care to take on another world's champion as active as Walker has been and will be in the future.

It is also unlikely that Walker would consent to subordinate himself to even the heavyweight champion, although they have always been very close friends. It was rather generally known for some time that Walker was willing to let Kearns do his business for him as soon as he knew that Dempsey wasn't going to fight any more and it was also said that it was the heavyweight champion who put in the good word for Kearns.

In getting a ready-made champion under his wing, Kearns was as lucky as Billy Gibson was when he landed Gene Tunney, but Kearns probably will make more money with Walker than Gibson did with the American light heavyweight champion.

Much of the success that Kearns had with Dempsey was due to luck. Of course, it took a good business man to get the money that Kearns got for the heavyweight champion, but the luck factor was there all the time. Perhaps good breaks are essential to the success of any business.

Kearns was lucky in getting Dempsey. He practically had a heavyweight champion forced upon him. If he had been in the possession of a roll when Dempsey asked him to accept his management, it is very likely that Kearns would have turned him down, but he needed the money and he was willing to take the chance with him.

## LITTLE FALLS VS. ST. CLOUD SUNDAY

### FIRST HOME GAME OF FORMER IN CENTRAL MINNESOTA LEAGUE

Little Falls, May 16.—The Little Falls Central Minnesota Baseball league will play its first home game Sunday when it takes on an ancient and respected rival, St. Cloud. The game is expected to attract one of the largest crowds that has ever witnessed a similar attraction in recent years. Both teams were victorious in their games of a week ago and are on edge to maintain their perfect slate. In its battle with Richmond last Sunday Little Falls showed splendid form, both the outfield and the infield playing almost errorless ball.

Owing to the cool weather Sunday Boche did not run the risk of injuring his arm by too strenuous pitching and he allowed the Richmond batsmen to connect for numerous flies within easy reach of his teammates. If the mercury mounts several notches, next Sunday will find the South St. Paul hurler performing in his usual style and causing the Saintry sluggers considerable worry.

The local team has been augmented by the addition of Irl Morse of Minneapolis. Morse is known to local fans through his work with the Crosby all-star team a few years ago. He is a good stickler, covers the third sack well and knows baseball thoroughly. Morse will also act as field manager for the team.

There is one weak spot in the team that will have to be patched up before the St. Cloud fray and that is at the initial sack. Bowman proved himself a fast man in that position last Sunday but his work takes him out of the city so much that he cannot be depended upon as a regular. Wurst is being tried out at first and may possibly handle that berth against the Saints. Yourish and Mushel will compose the rest of the infield. Longley, Tucker and Miller will probably be in the outfield. Little Falls Daily Transcript.

## BATTLE WITH

### A. O. U. W. AND WIN 6 TO 5

#### FIFTH AND SIXTH INNINGS WERE DRASTIC FOR THE WORKMEN

#### PITCHING HONORS ABOUT EVEN, EACH PITCHER ALLOWING SIX HITS

The B. A. C. team came from behind in a good game at the Koering grounds last night, and won from the A. O. U. W. by a score of 6-5. At the beginning of the fourth inning the score was four to none against them, and then the B. A. C. clan began their heavy work, scoring once in the fourth three times in the fifth, and twice more in the sixth.

The A. O. U. W. was first to score, counting three markers in the second. They added one more in the third, and another in the fifth. On defense they contributed a double play in the first inning.

The fifth and sixth innings were the drastic ones for the Workmen.

Three runs pattered over in the fifth, on one hit, a walk, and three errors. Two more came in during the B. A. C. half of the sixth, on two hits and an error. After two were disposed of, Sandgren connected for one-bagger Soderlund followed with its second single of the contest, and then Brick lifted a fly to McAlpine in center field, which dropped into McAlpine's glove and out again, both Sandgren and Soderlund coming in on the misplay.

In both the fifth and sixth innings, he B. A. C. runs were scored after two men were out. The B. A. C. displayed a spirit of never-say-die, and proved good finishers.

Pitching honors were about even, with Soderlund and Stevens each allowing six hits, Soderlund getting six strikeouts and Stevens seven, with Stevens granting two passes.

## INTERSCHOLASTIC FIELD MEET ON

### Poor Excuse is Better Than None in This Case

Chicago, May 16.—Because Paavo Nurmi "broke his contract" to race Jole Ray here May 31, Charles A. Dean, piloting the Illinois athletic club track team with which Jole runs, will not permit the tricolor star to accept an invitation he received to meet Nurmi at Harvard stadium, May 22, it was announced.

One of the features of the meet is the awarding of a gold engraved watch to any athlete who breaks a record. Last year six records were eclipsed by the high school stars.

Rochester athletes, coached by Fred H. Oster, former Minnesota luminary, are expected to be strong contenders for the title this year. Owatonna carried off top honors last year with Winona placing second.

By special ruling, twin city high school stars will compete in the meet. In addition high schools from every section of the state have been entered.

Famous Dog to Be Seen in "The Broken Silence" Which Comes to the New Park Theatre Sunday and Monday

When James Oliver Curwood's latest production, "The Broken Silence" comes to the New Park Theatre on Sunday and Monday, movie fans will have an opportunity of seeing one of the most famous dogs in this country.

Curwood has always been noted for his stories of the north and "The Broken Silence" is no exception. Much of the action in this picture circles around a dog team and a great white wolf. The leader of the dog team, Penepa, is the only sur-

viving dog that was with Rear Admiral Peary on his famous dash to the North Pole. This dog is now the property of Jacques Suzanne, who furnished the Pine Tree Pictures Corporation, producers of the Curwood Specials, with the dogs used in "The Broken Silence," and also with the white wolf. Mr. Suzanne, besides being the owner of the above mentioned dog, has in his team two full-blooded timber wolves, said to be the only wolves in captivity having been domesticated to a point where they are tractable, and a curious thing about them is that they are said to be more gentle than the Eskimo huskies composing the rest of the team.

How High Is Up? Asks Screen Star  
When Laurette Taylor came to the Metro studios in Hollywood to make "Peg O' My Heart" last year, it was her first experience in a motion picture studio.

When she returned early this year to make "Happiness," her second Metro picture, which is showing at the New Park tonight only, she disclosed some of the things that were puzzling to her when she first appeared before the camera.

Among the items of information Miss Taylor wanted to know was WHY:

She couldn't use the same make-up before the camera that she used behind the footlights?

Directors with foghorn voices always used megaphones, while those with weak voices scorned them?

The cameraman spent so much time squinting through a small piece of blue glass?

He is a good sticker, covers the third sack well and knows baseball thoroughly. Morse will also act as field manager for the team.

There is one weak spot in the team that will have to be patched up before the St. Cloud fray and that is at the initial sack. Bowman proved himself a fast man in that position last Sunday but his work takes him out of the city so much that he cannot be depended upon as a regular. Wurst is being tried out at first and may possibly handle that berth against the Saints. Yourish and Mushel will compose the rest of the infield. Longley, Tucker and Miller will probably be in the outfield.—Little Falls Daily Transcript.

## BATTLE WITH A. O. U. W. AND WIN 6 TO 5

### FIFTH AND SIXTH INNINGS WERE DRASTIC FOR THE WORKMEN

### PITCHING HONORS ABOUT EVEN, EACH PITCHER ALLOWING SIX HITS

The B. A. C. team came from behind in a good game at the Keoring grounds last night, and won from the A. O. U. W. by a score of 6-5. At the beginning of the fourth inning the score was four to none against them, and then the B. A. C. clan began their heavy work, scoring once in the fourth three times in the fifth, and twice more in the sixth.

The A. O. U. W. was first to score, counting three markers in the second. They added one more in the third, and another in the fifth. On defense they contributed a double play in the first inning.

The fifth and sixth innings were the drastic ones for the Workmen.

Three runs pattered over in the fifth, on one hit, a walk, and three errors. Two more came in during the B. A. C. half of the sixth, on two hits and an error. After two were disposed of, Sandgren connected for a one-bagger Soderlund followed with his second single of the contest, and then Brick lifted a fly to McAlpine in center field, which dropped into McAlpine's glove and out again, both Sandgren and Soderlund coming in on the misplay.

In both the fifth and sixth innings, the B. A. C. runs were scored after two men were out. The B. A. C. displayed a spirit of never-say-die, and proved good finishers.

Pitching honors were about even, with Soderlund and Stevens each allowing six hits, Soderlund getting six strikeouts and Stevens seven, with Stevens granting two passes.

## Famous Dog to Be Seen in 'The Broken Silence' Which Comes to the New Park Theatre Sunday and Monday

When James Oliver Curwood's latest production, "The Broken Silence" comes to the New Park Theatre on Sunday and Monday, movie fans will have an opportunity of seeing one of the most famous dogs in this country.

Curwood has always been noted for his stories of the north and "The Broken Silence" is no exception. Much of the action in this picture circles around a dog team and a great white wolf. The leader of the dog team, Penepa, is the only surviving dog that was with Rear Admiral Peary on his famous dash to the North Pole. This dog is now the property of Jacques Suzanne, who furnished the Pine Tree Pictures Corporation, producers of the Curwood Specials, with the dogs used in "The Broken Silence," and also with the white wolf. Mr. Suzanne, besides being the owner of the above mentioned dog, has in his team two full-blooded timber wolves, said to be the only wolves in captivity having been domesticated to a point where they are tractable, and a curious thing about them is that they are said to be more gentle than the Eskimo huskies composing the rest of the team.

## AMUSEMENTS

How High Is Up? Asks Screen Star When Laurette Taylor came to the Metro studios in Hollywood to make "Peg O' My Heart" last year, it was her first experience in a motion picture studio.

When she returned early this year to make "Happiness," her second Metro picture, which is showing at the New Park tonight only, she disclosed some of the things that were puzzling to her when she first appeared before the camera.

Among the items of information Miss Taylor wanted to know was WHY:

She couldn't use the same make-up before the camera that she used behind the footlights?

Directors with foghorn voices always used megaphones, while those with weak voices scorned them?

The cameraman spent so much time squinting through a small piece of blue glass?

## Manicured Cowboys in "The Arizona Romeo"

Lucy Fox, who plays the leading feminine role in the new Buck Jones picture, "The Arizona Romeo," showing at the Lyceum Theatre tonight only, has never been seen to better advantage. Playing the part of Sylvia Wayne, a daughter of a rich Eastern magnate her every movement portrays the inherent independence of her father.

In the later action of the picture, as a manicurist in a small western town she wins the hearts of all the cowboys and finally discards her wishy washy lover for the vigorous and dauntless Tom Long (Buck Jones).
